In that Quiet Earth

Visualisation of H20v1a terrace garden

This image depicts the fully furnished product specifications (different from green, blue and purple)

In That Quiet Earth sits off Hennur main Road, in the fast developing North Bangalore area which has not only emerged as an economic hub, but also as a front-runner among self-contained suburbs that are great places to live and work. The presence of good schools, hospitals, malls, hotels and restaurants in the area and easy access to the airport enhances its desirability.

In the first phase this project offers a choice of U10 (2 bedroom), U20 (4 bedroom), and the H20 (3 bedroom) home products, representing exceptional value for money.

Each home is designed to address the needs of a high-quality contemporary lifestyle with a host of innovative features, and can be customised to suit the functional needs and aesthetic preferences of individual families. Using our proprietary eDesign platform, you can move walls, combine rooms, reconfigure layouts and redesign almost every aspect of your home so that it is just right for you.

Visualisation of U10v1x living room

This image depicts the fully furnished product specifications (different from green, blue and purple)

We have tried to perfect our homes over time to provide a sense of warmth, privacy, openness and tranquillity in an increasingly stressful world.

Almost every space opens out into a landscaped garden, complete with a sprinkler system and drip irrigation system, and large glass panels bring in natural light into the home.

Amenities in the project include a clubhouse with well equipped gym, indoor games, children's play area, and a multipurpose hall.

Our commitment to quality extends well beyond the customisation and delivery of your home. We assume responsibility for property maintenance which includes a comprehensive list of services.

In that Quiet Earth has been created at an affordable price point without any compromise on the design and detailing of Total Environment homes and is slated to be a distinctive address in North Bangalore.

TotalEnvironment
Homes

H2O

The 3-bedroom H20 home is designed around the concept of a traditional Indian courtyard with the kitchen, living, dining, and master bedroom all opening out onto a double-height garden. The garden is especially designed to hold a full-grown, small tree, bringing nature into the heart of the home. Simple, clean lines and free flowing spaces ensure that the interiors don't feel dated after some time. Each home is open on three sides and provided with generous wooden windows and French windows to bring in plenty of natural light. Earthy natural stone flooring and wood windows provide the warmth that you can always expect from a Total Environment home.

U10

This 2-bedroom home is designed with the living and dining space and the bedrooms opening out towards a double height garden and deck especially designed to house a full grown small tree. Simple, clean lines and free flowing spaces ensure that the interiors don't feel dated after some time. An open kitchen allows for conversations, and large windows and French windows bring in plenty of natural light. Earthy natural stone flooring and wood windows provide the warmth that you can always expect from a typical Total Environment home.
